

Christophe de Dinechin

Software as a Passion

LANGUAGES | SYSTEMS | TOOLS | GAMES | PHYSICS | COMMUNICATION SKILLS

ABOUT

Pushing the boundaries by writing highly innovative and differentiating software to make as much of a difference as possible.

French software developer — games, languages, operating systems

Amateur physics researcher

Tinkerer in strange forms of art

KEY SKILLS

- Languages & Compilers
- Systems & Virtualization
- Tools & Apps
- Games & 3D
- Physics
- Communication Skills

TECHNOLOGIES

SoC, Firmware, System, Validation, Performance, Pre-silicon, C++, C, RPL, Lisp, XL, Tao3D, ELFE, Linux, KVM, macOS, Windows, SPICE, Emacs, OpenShift, Make

INFO

- Tinkerer in strange forms of art

LANGUAGES & COMPILERS

HP aC++ Compiler 1998-2000
- Wrote the first native Itanium C++ compiler before silicon; ran it on Ski (HP's functional Itanium simulator); HP's plan was a PA-RISC cross-compiler via Aries

DB48X automated test suite 2022-Present
- Built-in simulator suite in src/tests.cc / src/tests.h (3 412 named step checks; F12 / -Tall)

DB48X - Modern RPL Calculator 2022-Present
- Rebuild and improve the HP48-family user experience

Native Itanium C++ compiler bring-up 1998-2000
- Wrote the first native Itanium C++ compiler before silicon existed; ran it on Ski, HP's functional Itanium simulator (a second simulator also modelled performance details)

SYSTEMS & VIRTUALIZATION

HPVM - Enterprise Virtualization 2000-2010
- Early HPVM boot entirely on Ski (pre-silicon); later A-step silicon bring-up

HPVM pre-silicon and A-step bring-up 2000-2010
- Early HPVM (HP Integrity VM) boot was done entirely on Ski, HP's functional Itanium simulator — physical hardware took a while to arrive

HP ECUTEST Real-Time System 1994-1998
- Designed HP ECUTEST for engine control unit testing and system validation

SPICE Remote Streaming 2017-Present
- Part of the Spice team at Red Hat

TOOLS & APPS

Make-It-Quick
- Short readable makefiles without automake/cmake complexity

Recorder
- Continuous recording with printf-like statements for performance and debug traces

Emacs on Aqua
- Adapted an old NeXT port to Aqua when only Terminal Emacs shipped

GAMES & 3D

Alpha Waves / Continuum 1989-1990
- Started in 1988, published by Infogrames in 1990

HP-48 Games 1989-1993
- PacMan — first use of HP48 hardware scroll (per Paul Courbis)

Taodyne 2010-2016
- Created Tao3D to present in real-time 3D (big data, movies, glasses-free 3D)

PHYSICS

A Theory of Incomplete Measurements
- A Theory of Incomplete Measurements — unifying GR and quantum mechanics

Réunifions la physique
- Gentle French introduction to incomplete-measurement physics

COMMUNICATION SKILLS

3DIVART
- Adapt ray-tracing / ray-marching shaders for auto-stereoscopic screens via Tao3D

Informagie
- Started as a student around the same time as Alpha Waves
